

SPONSORS &
DONORS

Dear Prospective Valued Donor and/Sponsor,

You may have heard and seen, our son, Donte on TV, also known as, the #KingofAusome. Donte, has serve Autism. It was his 13th Birthday wish to give children with autism and their siblings an #AUsomefamilyxmas to Autism families.

We are so thankful for your consideration and support for our son. He has a huge heart. And now again, for Donte's 14th Birthday his wish- is serve spectrum families.

We are excited and appreciate your donation to the www.'Kingofausome.com It is a brand that uses its voice for Autism Awareness & Inclusion.

Donte, our son, now 13, was diagnosed with autism just before his second birthday. In addition to autism, he has selective combine immunodeficiency, which in lay terms means he is unable to fight off infection like you or me.

Throughout his short life, no matter the challenge, he has grown beyond the limits, thought to be his ceiling. To that effect, we were both excited and elated when HE DECIDED to give back in such a big way. Your contribution would mean everything to him in meeting this initiative for his birthday.

Thank you so much in advance for your support.

In order to provide inclusion to the families we service 2-21 is the age group we are targeting. Autism is a spectrum disorder and as such children on spectrum sometimes also experience developmental delays that impact their ability to play alongside of their peers with their same chronological age.

Will you join us, in making his birthday wish come true?
